I'm a software engineer / computer scientist and a hacker in general, who loves to solve challenging problems. Programming is the main activity that helps me to bring my solutions alive.

Achievements

QualityAssistant: My software-quality tool with a live feedback is integrated into the latest version of Pharo IDE. Expected usage: 30 commercial companies, 20 universities (for teaching).

Live 3D visualizations video [youtu.be/CuimMwuZiGA]: was used in a couple of dozen presentations for demonstrating the idea of live programming.

StackOverflow: Owner of (9 owners in total) and (3 owners in total) badges.

I'm honest, you may hate me for that.
